ALL WORKING FOR A GREATER BOARD OF TRADE

All for Hamilton Banquet
Was Enthusiastic and
Earnest.

GOOD GOOD SPEECHES

Over Two Hundred Citizens
at the Connaught
Tables.

The active and earnest way in which the business and professional men of Hamilton are joining up with the Board of Trade re-organization campaign was strikingly exemplified in the large and enthusiastic attendance of over two hundred men, both men and women, at a banquet held under the auspices of the Board in the Royal Connaught last night. Mr. G. C. Coppley, chairman of the re-organization campaign, quite ably filled the chair.

In a few opening remarks Mr. Coppley volunteered the encouraging information that many numbers of citizens had been seen abroad and that the preparatory work of the campaign was receiving generally the enthusiastic support of the business and all classes. "When the drive is completed next week we expect not less than \$100,000 will have been raised or the £100,000 first aimed at," he said.

J. T. Dodge, of Dodge Brothers, New York, the first speaker of the evening, prefaced a very interesting and inspiring expression of his desire to help the cause by telling of the great work he has been doing in the city of Hamilton, who he thought were facing one of the most difficult problems in the history of all citizens. "When the drive is completed next week we expect not less than \$100,000 will have been raised or the £100,000 first aimed at," he said.

A special committee has been appointed by the Niagara Chamber of Commerce to handle the campaign in the Fruit Division, Ottawa, to get a new vision has been attained, and the campaign is now well under way, the community being part of the education of the children. Selfish aims are giving way to the realization that the good of the community is the good of the nation.

The vision of the citizens is always reflected in the conditions of the city, he continued. "The greatest need of any man, even a Peasant, can only make a city. Nor is it playing the game to take all the good things from a man, and then let him go, get nothing back in return. Organization such as was being undertaken local governments, and the like, can do much to assist in making the world a better place to live in."

"With the spirit of optimism which has weighed so heavily on my mind, I am confident that the world which attends steady effort will be yours," he concluded.

It interested Mr. James W. Ross, ex-Minister of Agriculture, and at present chairman of the Canadian Red Cross Society, Gen. S. E. McNaughton, commanding general in connection with the Red Cross, during the war. He also voiced his hearty endorsement of the campaign, and would meet with success, "I am glad to see," he proceeded, "that the service of our countrymen in the field you insist upon in your members. It is a quality that determined largely our success in the war, and the success of Hamilton, and it is to be hoped continues to be an asset."

The community spirit which the campaign would develop, he thought, one of the greatest assets which any city could have.

"One of the horrors of the battle-field is the lack of sympathy between the men of different nationalities, the result of which is that a just and bitter war is waged, and Robertson, "It was through the predominance of the soul above the head that the German troops were able to carry on so nobly over there, it is that spirit we need to-day," he said.

The Canadian Red Cross Corps referred to as having done much to improve the relations between French and many other allies and Canada. The Canadian women volunteers did magnificent work, particularly in the hospital corps along their courses, and an intense winning the admiration and respect of all the different nationalities in whom they came.

Speaking of the present high prices of food-stuffs the speaker believed the situation was serious, and that it is a scarcity of food he declared and as an inducement to the producers the present is holding the prices of food products which are to be demanded to produce as during the war and hence this means has been used to raise the price too.

"We are doing, I might say, a great wrong by giving a strong wrong to the people of our neighbors, who have done much to ameliorate the severe conditions from under which they are suffering. The credits which the world extended to Great Britain subsequent to the signing of the armistice was one of the chief causes of the present high cost of living.

Assurance was also given that the United States would shortly take the lead in the League of Nations.

As one who had signed the Peace Conference he said that he had come away from the meeting more impressed that this was a great opportunity to make the world a better place.

First, that such a war would never occur again; secondly, that the peace would be fully justified in that there should be fair and humane conditions for all.

The sense of a city lies in each ideal condition, and the sense of a city which does not have good food, such as school, is dead. Picturing the great importance of food in the welfare of the world, in the campaign as a national duty, which would be final, he urged the audience to sign the pledge.

As well as the customary toast to the health of the country, he proposed a silent toast proposed from the heart, and the honor of the speaker, the second battle of Vimy Ridge, the birth of

Zeebrugge, the second battle of Ypres, and the battle of Zeebrugge, all present.

More standing with bowed heads, the community singing under the direction of Bruce Carey, with a

C. Garrett as accompanist, introducing a table of chords and solos. Impromptu from the band, solo, and the organ. The organ received. Mr. George Allan, soloist, accompanied by Jean Shanks, added in several exercises numbers greater to the evening's entertainment.

A telegram was received during the evening containing the best wishes of the London, Ontario, Chamber of Commerce.

FRUIT GROWERS ARE PROTESTING

Against a Proposed Express
Rate Increase.

Companies to Appeal to
R.Y. Commission.

St. Catharines, April 22.—The fruit-growers of the Niagara district are making a vigorous kick against the proposal of the express companies to increase rates on fruit carrying.

A year ago the R.Y. Commission allowed the express companies to increase rates on fruit carrying. A year ago the R.Y. Commission allowed the express companies to increase rates on some articles, but not on others, or on produce, including the ladies' wear, which was considered a commodity, there being no express charge on the ladies' wear. The Railway commission did, however, grant the express companies leave to appeal again if they found that the rates were not reasonable.

A tentative rate increase is an attempt to do just that, and fruit-growers and others interested claim it has been done in a haphazard manner. The express rates on Niagara Falls and Toronto is increased 100 per cent. That stretch of territory, which is a great area, and covers 100 miles from Toronto as from Niagara Falls and St. Catharines, the new rate will be 60 cents a hundred pounds into Toronto from any point.

It is apparently they cannot, for they have intimated that they intend to appeal to the Commission, and point out that in the first four months of the year, rates on apples were increased 100 per cent.

SECOND YPRES COMMEMORATED BY SIXTEENTH

Gallant Canadian Scots Recount Deeds of Five Years Ago.

COL. PECK SPOKE

Also Some of the Originals of the Famous Battalion.

Last evening, in commemoration of the fifth anniversary of the second battle of Ypres, in which the 16th Canadian Scottish Battalion took such toll of the regular veterans of the regular battalions, the "Originals" of the battalion, most of the officers and men who had been with the battalion from the time of its formation, gathered at the hall of the Royal Canadian Legion, 16th Street, to hear Col. Frank Peck speak on the subject.

Col. Peck, a former member of the 16th, addressed the gathering, and proposed a toast to "Our O.C." Col. Edward J. Kneip, who had been sentenced to death for his part in the raid on the British headquarters at Ypres.

DIVORCE WORST.

A Greater Evil than the Saloon in U.S.

Washington, April 27.—More than five per cent. of the divorces granted in the United States are based on "irreconcilable differences" resulting from the fascination of the husband or wife for someone else. Francis Moody, president of the International Divorce laws, Mr. Moody declared that the divorce evil was a "worse plague than the saloon" and that the remedy was in Federal legislation.

Washington, April 27.—The annual meeting of the Methodist Sunday School Union was held on Thursday the Choral Society, in the Choral Hall, opened at 10:30 a.m. and it looks as though the house will be sold out for both nights. Those who have been connected with the church in the past years state that the choice in "The Choral Hall" is best the society has ever gathered together.

The physicians will be present at the meeting.

HUGE FRAUDS IN U. S. WAR DEALS

WHERE IS WRIGHT?

Mystery About Board of Education Member.

(Canadian Press Wire) — Attorney General Palmer announced yesterday that investigation by the Department of Justice of alleged frauds committed in connection with illegal transactions involving millions of dollars, and that through civil and criminal processes would continue until all persons concerned would be saved for the Government. "Questionable vouchers alone have resulted in the withholding of payments by the Government amounting to approximately \$1,000,000," the Deputant declared in a statement.

NO FARMERETTES

But Demand for Girl Fruit Pickers.

The broad-brimmed hats and smart farmwomans' costume is not likely to be the most popular attire for the girls who spend their working week during the war, nor is there much demand for the agriculturists' assistance. Miss E. Franklin, the representative of the Ontario Employment Bureau asserted this morning that no demand had been made by the Y. W. C. A., but however by the government, for girls to be sent to work to have seven days or more service. The girls will then receive government supervision.
